

DSG-X10:

- Compact design.
- High quality sound (CD-quality: 44KHz, 16 bit, stereo).
- 10 samples, unlimited in length.
- Easy controls.
- The volume can be adjusted for each sample separately.
- A timer can be used to play samples automatically.
- 1 sample can be started by an external switch, relays contact,...
- The samples are stored on an SD memory card which is accessible on the back of the device. You can change the sounds on the card easily by using a PC or DSR-X20.
- Built in mute function for easy connection to any amplifier, mixer,...
- For connecting to a Discosmash preamplifier, only 1 connection and no external power supplies are needed.

Height	42 mm	1.7"
Width	225 mm	8.9"
